SUMMARY

Full-Stack Developer with a background in geography, I plan to utilize my skill set to contribute to the industries that build sustainable infrastructure, restore earth, and or create innovative solutions and technologies that build better cities.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Node.js, Express, MySQL, MongoDB, React.

PROJECTS

Our Favorite Spots App |**GitHub Repo** https://github.com/TestadeNevill/GroupRepo
Deployed Link https://testadenevill.github.io/GroupRepo/Restuarant%20Near%20Me%20Map.html

- This project was based on knowing more about my group member's favorite places and being able to find them on a map. We combined our love for local good food into an application that populates nearby restaurant locations.
- My responsibility was solely creating the code for drawing the map in order to generate the restaurant data from the users geolocation.
- HTML, CSS, Javascript and Google Maps API.

Weather Dashboard App |**GitHub Repo** https://github.com/TestadeNevill/tDNWeatherDashboard
Deployed Link https://testadenevill.github.io/tDNWeatherDashboard/

- An application that uses api calls to populate a web page with current and 5 day forecast weather data.
- I had to extract the weather data object into html templates.
- HTML, CSS, Javascript, JQuery and API's.

Password Generator App |**GitHub Repo** https://github.com/TestadeNevill/TestadeNevill.github.io
Deployed Link https://testadenevill.github.io/PG.html

- The user can generate a password based on a selection of chosen character selections.
- I created the functions that randomly choose each character based on user criteria.
- HTML, CSS and Javascript.

EXPERIENCE

Sales Agent   Jan 2019 – Sept 2019
Kinard Realty Group   Parsippany, NJ

Oversee lease negotiations, design, permitting and construction of tower and rooftop telecommunication projects. Coordinate with various personnel to ensure sites follow municipal regulations, meet client budget guidelines, engineering and construction requirements and project deadlines.

Sales Agent   May 2017 – June 2018
Kinard Realty Group   Stamford, CT

Assist clients with the process of renting, selling and buying residential or commercial property. Study market trends, property listings, interview potential prospects, accompany clients to property sites and discuss conditions of sale. Identifying and analyzing acquisition opportunities through site selection, financial modeling,

strategic planning and negotiating transactions. Coordinate meetings with primary parties and stakeholders to explain various aspects of each project proposal.

Zoning Deputy's Assistant   April 2015 – April 2017
City of New Haven Planning Department   New Haven, CT
Research and present aspects of urban planning, real estate markets, transportation systems and city management. Develop comprehensive plans and programs for land use in city districts using a strategic planning model and engage varying audiences in the improvement plans. Foster relationships with parties interested in acquiring permits and conduct briefings for key stakeholders on project validation.

Key Accomplishments:
Contributed to the 2015 City of New Haven Comprehensive Plan 2025
